*Dear Sir or Madam,*

in connection with the war in which Ukraine was attacked by the armed forces of the Russian Federation, the authorities of the Medical University of Silesia in Katowice wish to express their full solidarity with the Ukrainian people who are defending their freedom and homeland with great sacrifice, and strongly condemn the actions that strike at the fundamental values of life, liberty, truth and social security.

At the outset, we would like to assure you that we offer every assistance to the students of your University, in all matters related to studying and staying in Poland.

At the same time, we would like to inform you that many students who left their place of residence in Ukraine due to the war danger, expressed their will to continue their studies at our University, especially from the fields of medicine, dentistry and pharmacy.

With reference to the above, taking into account the current and possible future difficulties of the above mentioned group of students in providing full documentation concerning the course of studies, I would like to ask you, if at all possible in the current situation, to send in electronic version to the following address: [rekst@sum.edu.pl](mailto:rekst@sum.edu.pl) of curricula, together with syllabuses of particular subjects, of all cycles of studies, starting from the first to the last year of studies of all majors conducted at your University. The above would definitely help us to determine curriculum differences or learning outcomes from individual years of study and would facilitate

Uniwersytet  
Medyczny  
w Katowicach

recognition of the above students as having completed the relevant period of study.

Слава Україні !

Z upoważnienia REKTORA  
Śląskiego Uniwersytetu Medycznego w Katowicach  
PROREKTOR  
ds. Studiów i Studentów

prof. dr hab. n. med. Jerzy Stojko
